

OVERNIGHT PARKING PLAN CONDOS

Changes to Summer Overnight Parking in Vail

Vail Village & Lionshead
Parking Structures

Summer 2018

DAY parking is still FREE

Starting May 25, **OVERNIGHT** parking will be \$25 per night with some exceptions

Condos with no parking where an owner lives or stays for a significant part of the summer season will receive a parking pass for the summer, if requested.

Condos and short term rentals will receive a voucher which the property manager/owner can obtain. A copy of the Town of Vail Short Term Rental License must be presented to receive the parking voucher. See sample attached.

The guest will need to give the voucher to the booth attendant, meaning that all guests will need to leave through the left lane in Vail Village and the right lane in Lionshead if they need to have their parking validated. Parking only needs to be validated if the car is left overnight. Validated vouchers are kept by the booth attendant for each overnight ticket.

Property managers/owners be aware vouchers will be given for a specific number of nights and it is up to the property manager/owner to ensure the guest receives and is aware of how to redeem the voucher when being used. If they don't leave the car overnight and move it during the day, they will not need a voucher as it will already be free.

The property manager/owner will be given some spare vouchers in the event the guest misplaced/loses the voucher. The guest is to obtain the extra voucher from the property manger/owner.

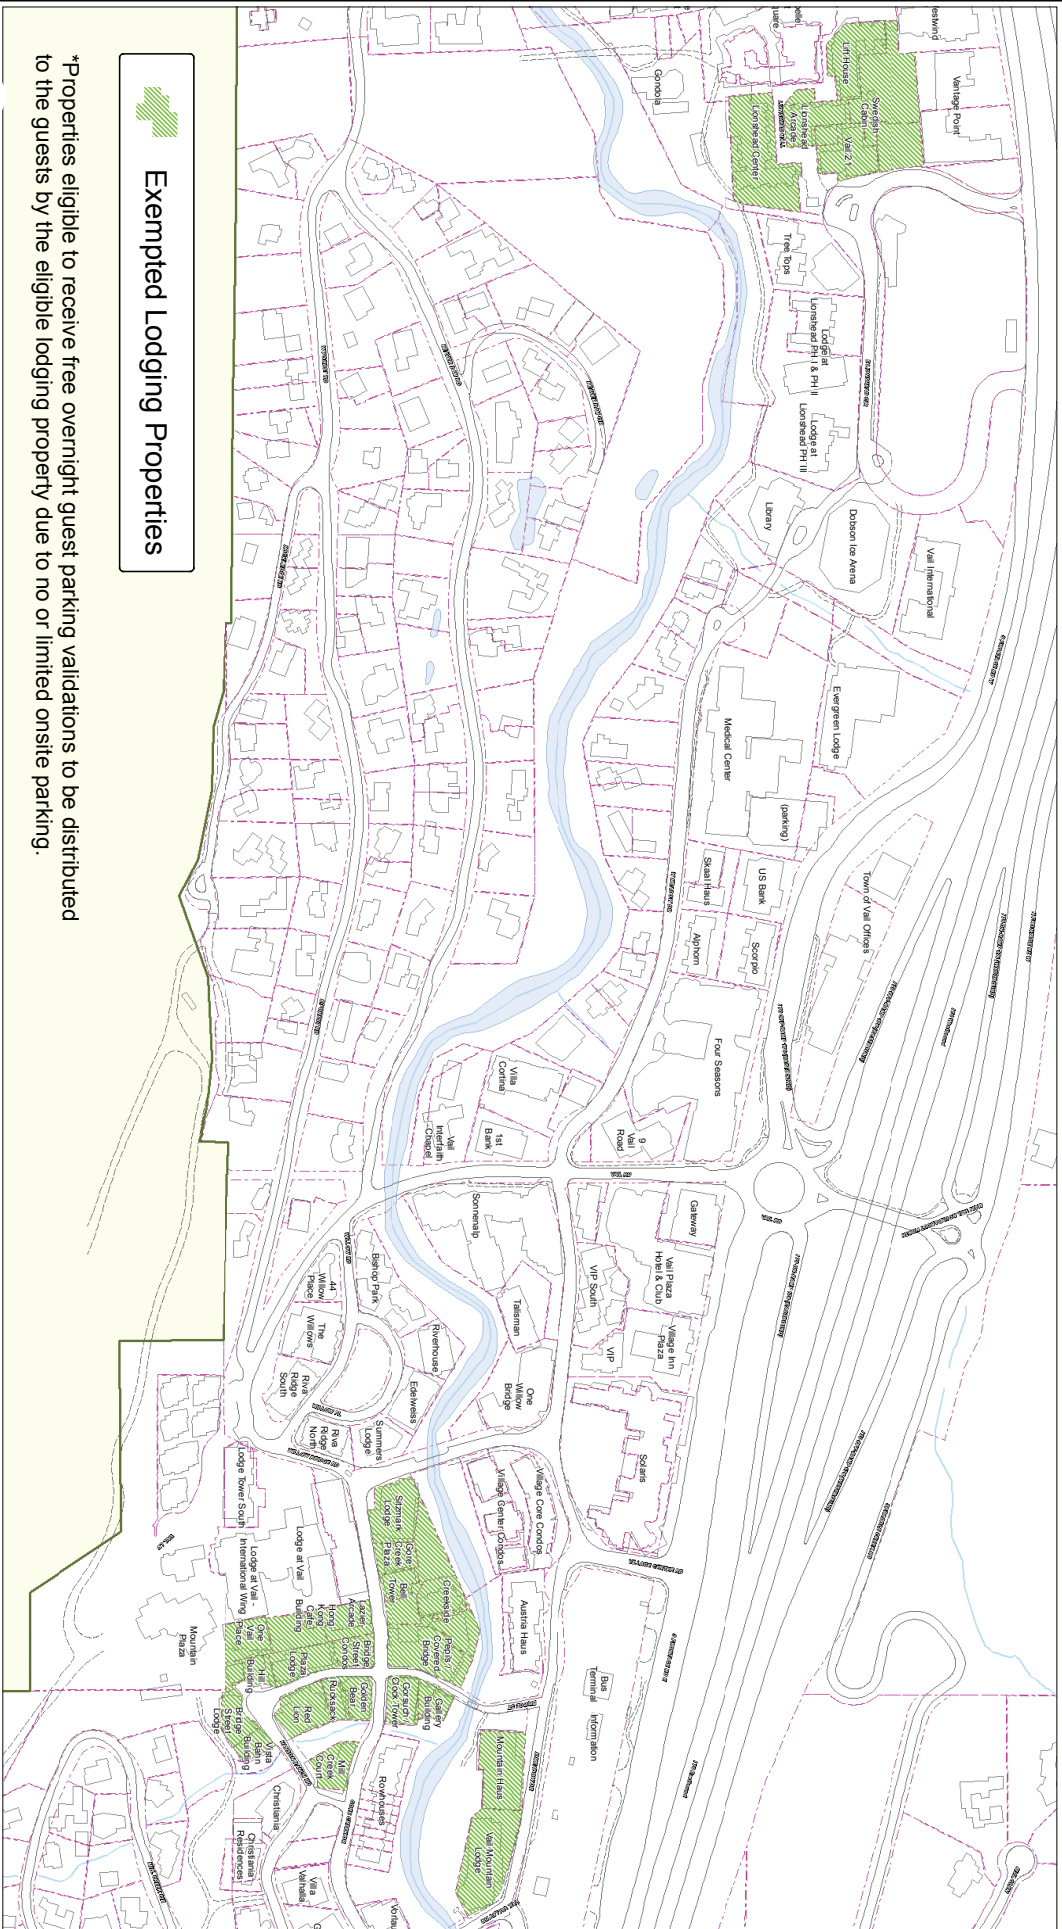

The property manager/owner will need to contact the Town Parking department in order to retrieve used vouchers to reuse.

Program is subject to annual review and changes by the Town of Vail.

See exemption map on back >

Exempted Lodging Parking Map - Summer 2018

Exempted Lodging Properties

*Properties eligible to receive free overnight guest parking validations to be distributed to the guests by the eligible lodging property due to no or limited onsite parking.

This map was created by the Town of Vail GIS Team. Use of this map is for general purposes only. It is not to be used as a survey or for any other purpose. (where shown, parcel line work is approximate)
